STAC

# About STAC

STAC Trading and Contracting have a history of responsible business conduct. We strongly believe that real business success is not just about profits measured in numbers but also, as importantly about how those numbers are achieved.

Our company strategy reflects our commitment to sustainable business practices and balancing responsibility alongside growth & productivity. A vital aspect of our business is Health and Safety at Work, simply because our biggest asset is our employees.

People Development is one of our main business drivers. We have qualified staff, an honest and efficient team of workforce permanent and associated with us to work with us on our projects in any condition. Our systematic on the job training help our employees into integrate to our business values.

At STAC, we are committed our efforts to fulfil our client's unique business requirements. Our integrated business model provides our clients with a single window service for all their business procurement. STAC has strong management with a collective professional experience of more than 30 years in Qatar's service sector. This has accelerated STAC growth in a short span of time. As an organisation, we are committed to quality, safety, time and cost.

# Why STAC?

**Inspired Solutions Across A Range of Industries.**

## **Experienced Estimators:**

STAC's centralised and experienced estimating department works closely with our onsite estimators to ensure realistic budgets are set and met. Our vast experience in accessing each client's individual needs often provides cost-saving alternatives in the process.

## **Procurement Strength:**

We confidently offer our clients competitive pricing due to our centralised procurement strength. Working with only the highest quality supply chain partners, we constantly source new products and solutions, enabling us to incorporate the latest and best in technology into our projects – at the best price.

# It's not what we do, It's how we do it.

## Healthy and Safety:

Safety is not just another box to be ticked. Before any work commences, our committed team ensure the work environment meets and maintains the highest level of safety, minimising injuries and project downtime. Fully compliant with the strictest of government regulations our Health and Safety Policy is another way we're helping our clients manage risk while delivering exceptional project results

## Environmental:

At every level of our business, we're committed in our effort to minimise the environmental impact of our projects. From the choice of material, waste disposal, efficiency of machinery and power, right down to the recycled paper of this brochure, sustaining our environment, sustains a future for us all.

## Innovation:

As an industry innovator, we take pride in driving and developing the growth of the general contracting sector. Through strategic partnerships, alliances and relationships with like-minded organisations and government departments we're helping to build an industry based on the highest possible work standards, setting the benchmark for the industry and raising the bar for our competitors.
